WordPress Deployment Guide (Step-by-Step for Intern)

Step 1: Setup

- Use **WordPress + Astra Theme + Elementor Builder**
- Install SEO plugins: **Yoast SEO** or **RankMath**
- Install caching plugin: **WP Rocket** or **LiteSpeed Cache**

- Use **Cloudflare CDN** for faster load time

Step 2: Design Structure

- **Homepage:** Hero image (African farms/export visuals) + key products + CTA “Partner With Us”
- **About Us:** Text above
- **Products:** Separate section for each with icons/images
- **Partner With Us:** Highlights of Gamma’s strengths
- **Contact:** Google map + simple form (Name, Email, Message)

Step 3: SEO Best Practices

- Add meta title & description for each page
- Use H1, H2, and H3 properly
- Add **alt text** to all images (e.g., “Tanzania Cashew Nuts Exporter”)
- Internal link between pages
- Submit sitemap to **Google Search Console**

Step 4: Blog Strategy

Post monthly blogs such as:

1. “Tanzania’s Cashew Season 2025 – What Buyers Should Know”
2. “Why Tanzanian Coffee is Winning Global Hearts”
3. “5 Reasons to Source Agro Commodities from Africa”
4. “How Gamma International Builds Sustainable Trade Networks”

Each blog should include 3–5 targeted hashtags and 1 internal link.
